

Updated Example of Search Terms

If you are worried that you are missing articles, then you could develop a broader search.

To do this, you can add more vocabulary terms to some of the existing categories of the previous search. In this example we added some new text words to the Comorbidities column and also some new controlled vocabulary as follows:

Search terms	Prevalence	Comorbidities	High blood pressure	Henan
Text words	<i>19 text words (no change)</i>	<i>2 text words (+27 new words)</i> Obesity Diabetes dyslipidemia hypolipidemia hyperlipidemia cardiovascular disease heart disease vascular disease Stroke Cerebrovascular accident brain infarction brain infarct vascular accident myocardial infarction myocardial infarct heart attack myocardial ischemia angina coronary disease kidney disease kidney dysfunction liver disease liver dysfunction thyroid disease Hypothyroidism Hyperthyroidism Anemia	<i>3 text words (no change)</i>	<i>24 text words (no change)</i>

<p>Controlled vocabulary terms</p>	<p><i>24 controlled vocabulary words</i> (No change)</p>	<p><i>1 controlled vocabulary word</i> (+11 new words)</p> <p>Obesity [Mesh] Diabetes Mellitus [Mesh] Dyslipidemias [Mesh] Cardiovascular Diseases [Mesh] Stroke [Mesh] Myocardial Infarction [Mesh] Myocardial Ischemia [Mesh] Kidney Diseases [Mesh] Liver Diseases [Mesh] Thyroid Diseases [Mesh] Anemia [Mesh]</p>	<p><i>1 controlled vocabulary word</i> (No change)</p>
